

Key Takeaways from the Nordic India Dialogue 2024

1. India is Focused on multi-alignment through frameworks like Quad and G20.
2. Nordics expressed concern over Russia's aggression and dependency on China, urging supply chain diversification.
3. Areas of convergence include geoeconomics and supply chain diversification.
4. Emphasis on derisking over decoupling, especially in European and Indian supply chains.
5. Strong potential for India-Nordic collaboration in IT and green transitions.
6. India seeks to enhance domestic capacities and represent the Global South in global tech ecosystems.
7. Shared focus on AI, semiconductors, biotech, and space technologies.
8. Talent and innovation exchanges vital for mutual growth.
9. Collaboration on critical minerals and geothermal energy with Nordic expertise is promising.
10. Areas for cooperation include hydrogen, offshore wind, EVs, and maritime decarbonization.
11. Focus on creating an evolved bioeconomy and green job growth.
12. Concerns over military exercises and geopolitical impacts in the region.
13. Finland and Iceland prioritize Arctic Council governance and sustainability.
14. Growing Arctic security concerns amidst climate and territorial tensions.
